

Treasure Hunt

California Woods
5400 Kellogg Ave.
Cincinnati, OH 45230

All headings and distances are approximate. The route will always be on a trail; it will not follow straight lines. You will be navigating around trees and small bends in the trail. The bearings are taken in a straight line from point to point; the distances were estimated by pacing the distance off.

Begin:

At the fire hydrant in the parking lot near the office.

Follow a heading of 40° for approximately 70' to the "O" Trail Head sign

From trail head:

1. Travel 150' on a heading of 100° (to a sharp bend in the trail)
2. Travel 90' on a heading of 84° (to a TH sign)
3. Travel 200' on a heading of 356° (to a large stump)
4. Travel 325' on a heading of 40° (to far end of a bridge, pass a TH sign on the way)
5. Travel 202' on a heading of 278° (to intersection)
6. Travel 309' on a heading of 346° (to a bridge, pass a bench on the way)
7. Travel 305' on a heading of 226° (to intersection)
8. Travel 300' on a heading of 324° (to rounded bend in trail)
9. Travel 130' on a heading of 68° (TARGET!)

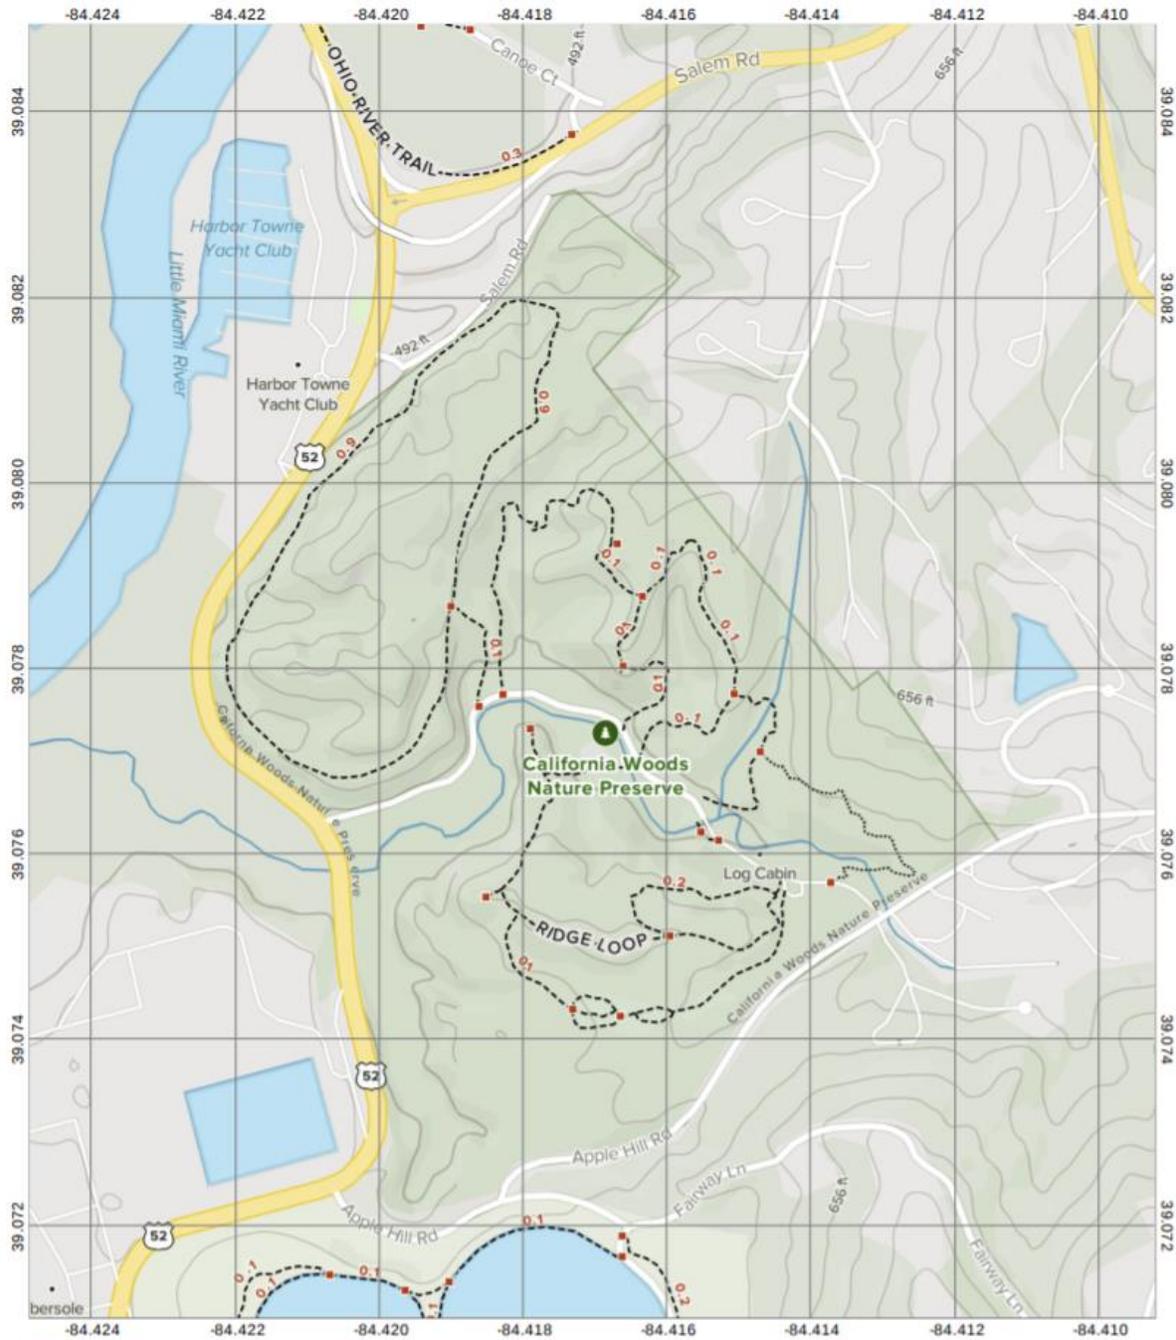

If you followed these directions carefully, you will now be facing something unique, meaning that there won't be anything else like it any where in the immediate area. It could be natural or man-made, but you will know that it is special.

Take a picture of what you find and send it to Barry. Maybe you want to take a selfie sitting on it!

Brandall715@yahoo.com

Send him the photo and your email address and we'll send you a Miami Group Buff (neck gaiter.) The first person to correctly identify the target, will also receive a deck of "Don't Get Lost Out There" playing cards!

Now enjoy a nice hike in this beautiful nature preserve. You've earned it!
